

PS-1216U

Supports GDI printers

Combo Print Server

Shares Your GDI/Host-based Printers

This Combo Print Server can let you share the GDI printer to all PCs through your network. GDI printers, built-in Windows Graphical Device Interface (GDI), are sometimes called host-based printers because they rely on the host computer (Win2000/XP/Vista) to rasterize pages to an image format, not PostScript or PCL language. Therefore, almost none of Print Servers in the market can support GDI printers. PS-1216U implements a special technology which allows it to communicate with the GDI printer as if it is connected directly to your computer. With the feature, the GDI printer becomes a shared device easily.

Compatible with Multiple Popular Operating Systems

The Print Server supports GDI printer in the most popular operating systems: Windows 2000 SP4 above, XP SP1 above and Vista.

Easy Installation and Configuration (with Web-Based Configuration)

PS-1216 easy-to-use Windows installation wizard allows quick installation and setup. The print server can also be conveniently configured from any network client with a web-browser.

Fault-Tolerant Firmware Upgrades

Users don't have to worry about errors occurring in the midst of an upgrade, thus preventing the print server from operating. The print server's fault-tolerant upgrade function resumes the upgrade should problems occur during the initial upgrade.

This equipment is intended to be used in all Europe and EFTA countries. Hereby Edimax Technology declares that this product is in conformity with the European R&TTE Directive (1999/5/EC). A declaration of conformity is available on www.edimax.com

Features

Complies with IEEE 802.3, IEEE 802.3u Wired Ethernet standards.
Provides one USB 2.0 port to connect to GDI printer or normal printer.
Shares GDI printer to all PCs through Ethernet Network.
Supports TCP/IP network protocols.
Supports DHCP Server and Client protocols.
Supports Web-based management and Windows Configuration Utility.
Supports GDI printer in Windows 2000 SP4 above and Windows XP SP1 above.
Supports Fault-Tolerant F/W upgrade

Specification

Model NO.	PS-1216U
Flash	512KB NOR Flash
RAM	2MB SDRAM
USB Port	USB 2.0 Type A x 1
LAN Port	10/100M UTP Port x 1 (Auto-MDI/MDI-X)
Power	7.5VDC, 0.5A Power Adapter
Dimension	20(H) x 58(W) x 75(D) mm
Temperature	0~55°C
Humidity	10~90% (Non-Condensing)
Certification	FCC, CE, C-Tick
