

Note:

1. This instruction uses pictures which are from EW-7438RPn V2.

2. If you need to restore to the default settings, press the WPS button about 15~20 seconds until you see the green PWR LED turn off and blink. That will restore the default settings.

Step by Step Instruction:

1. Plug the EW-7438RPn extender into a power outlet close to the root wireless access point and switch the Extender on.

2. Turn on your laptop & browser (IE, Firefox, or Chrome) and go to website: www.edimax.us

3. Click on **Download**

4. Download the EW-7438RPn upgrade tool and save it on your desktop.
